

Celebrating 10 years of rowing!

2012 ~ 2022

I am delighted to announce that we have been awarded almost £2000 from the CalMac Community Fund to support a number of projects the club is undertaking this year. The grant will allow our youth team to purchase some new oars, as they prepare to take part in the Skiffie Worlds this summer. We can also purchase some new “extra padded” seat cushions, to keep us all safe and comfortable as we row. The money will also be used to us help run training sessions for you all, and taster sessions for potential new members. We are very grateful to Cal Mac for this funding, which will allow us to develop our rowing reach within the local community, and continue to change lives through coastal rowing.

**Our project is supported by
the CalMac Community Fund**
